MIDTOWN
MODERN

Behind the Design

MODERN SIMPLICITY

Designer Sara Bederman took the “less is more” approach with this showstopper of a Scandinavian-inspired space. The dining room boasts beautiful blonde colored hardwood floors and bright white walls, which set the stage for the striking custom painting that instantly takes the mind to salty, blue waters. Equally as striking, the chandelier in this dining room truly doubles as a piece of modern art. The one-of-a-kind design combines material, shapes, and lines to create a soft, yet substantial feel. A modern dining table fitted with ergonomic chairs rounds out the design to create the space’s “less is more” look.
